ConnTrol Through the Years!

A Letter from the President

As I sit down to write this letter, I'm filled with an immense sense of pride for what Conntrol International, Inc. has become and a profound sense of gratitude for every individual who has been a part of our journey. It's a story that began not in a boardroom, but in a small residential garage in Woodstock, Connecticut.

In 1985, Conntrol was born from the American dream. With just a handful of dedicated employees and a vision, we started our journey. Those early days, when our workspace was a garage and the room's heater doubled as a potato baker, taught us invaluable lessons in resourcefulness, resilience, and the power of a shared goal. That spirit, forged in our modest beginnings, remains the bedrock of our company culture today. From that garage, we set out to do one thing and do it exceptionally well: build world-class, reliable foot switches.

Our Mission: Creating hands-free solutions to overcome unique problems.

Our history has been shaped by a clear and unwavering mission: to put our customers at the center of everything we do. We believe that a product is only as good as the support and dedication behind it. This is why we are relentless in our commitment to:

Top-Quality Foot Pedals: Every product that leaves our facility is built with the precision and reliability you have come to expect from the Conntrol name.

Customer-Centric Service: We believe in being more than just a manufacturer; we strive to be a partner. Our team is dedicated to providing attentive, responsive support to meet your unique needs.

Designs: We understand that one size doesn't fit all. We are driven by innovation, constantly seeking to provide tailored solutions for the unique challenges our customers face across countless industries.

Our Vision: No matter the application, we're committed to providing reliable products and custom solutions worthy of global recognition.

This vision extends beyond the products we create. We aim to be the global standard-bearer for quality and innovation in the foot switch industry.

We see a future where the Conntrol brand is universally recognized as a symbol of trust, durability, and forward-thinking design. We are proud that leading businesses worldwide already trust our products, and we are committed to deepening those relationships and forging new ones as we continue to grow and evolve.

Our Values: Our core purpose is creating value, which drives us to deliver quality products, exceptional customer service, and continuous workforce improvement.

We emphasize process-driven solutions, believing this approach unites employees when addressing issues like production quality or interpersonal conflicts. As a result, problems are viewed as opportunities to refine our processes and develop our staff, both essential to deliver and exceed customer expectations.

Our journey has been guided by a set of principles that define who we are and how we operate to create the greatest value for our customers:

Process: We believe in getting it right, every single time. It's in the process of design and production of our products, and in every interaction we have.

Quality: You count on our products to perform, day in and day out. We build them to last and stand behind them without hesitation.

Partnership: We view our customers, suppliers, and employees as partners in our success. We believe in building lasting, mutually beneficial relationships.

Now, as we look to the future, we are more excited than ever. The lessons of our past, the clarity of our mission, and the strength of our values will continue to guide us. We will continue to invest in our people, our processes, and our technology to ensure that we are not just meeting your expectations, but exceeding them.

Thank you for your continued trust in Conntrol. Whether you have been with us since the garage days or have just recently joined our story, you are a vital part of our success. We are honored to be your partner and look forward to building the future together.

Sincerely,

Jason Braaten
President, Conntrol International, Inc.

Series 210

Sealed, Momentary Action

A low-profile foot switch featuring a durable aluminum housing with ingress protection

FEATURES

1. Sturdy aluminum housing with plated steel pedals.
2. ½" NPTF connector hole standard for cable strain relief fittings. Other connector holes available on request.
3. No exterior springs! Two torsion springs located inside foot switch.
4. Two mounting holes.
5. Capable of handling up to 12/3 cable or .50" O.D.
6. .187" x .020" quick connect terminals.
7. Wide target area for foot operation.
8. Long life snap switch.
9. #8 grounding screw is provided.
10. Skid-resistant elastomeric base pad.
11. Two pedal model has an integral barrier.
12. Low profile design.
13. Buna-N O-Ring and Buna-N gasket seals.
14. Numerous cord strain reliefs available for your special requirements.

BENEFITS

The Series 210 foot switch delivers environmentally sealed protection within a compact, lightweight design. Featuring a wide target area for ease of access, the 210 offers efficient operation across a wide range of applications.

Momentary Action

Custom Foot Switches:

The Series 210 can be provided with special nameplates, cord sets, plugs, strain reliefs, and other features that may be required for specific applications.

Series 220

Sealed, Momentary, Dual Action

Low-profile control contained within a durable aluminum housing with ingress protection

FEATURES

1. Sturdy aluminum housing with plated steel pedals.
2. ½" NPTF connector hole standard for cable strain relief fittings. Other connector holes available on request.
3. No exterior springs! Two torsion springs located inside foot switch.
4. Two mounting holes.
5. Capable of handling up to 12/3 cable or .50" O.D.
6. .187" x .020" quick connect terminals.
7. Wide target area for foot operation.
8. Long life snap switch.
9. #8 grounding screw is provided.
10. Skid-resistant elastomeric base pad.
11. Single foot switch model available without barrier.
12. Integrated barrier.
13. Low profile design.
14. Buna-N O-Ring and Buna-N gasket seals.
15. Numerous cord strain reliefs available for your special requirements.

BENEFITS

Offering environmentally sealed protection, the Series 220 foot switch utilizes a low-profile design ideal for space-saving installations. For enhanced safety and precision, this dual pedal model includes an integrated barrier to prevent simultaneous operation.

Momentary/Dual Action

Custom Foot Switches:

The Series 220 can be provided with special nameplates, cord sets, plugs, strain reliefs, and other features that may be required for specific applications.

Series 300

Variable, Momentary/Maintained Action

Offers smooth operation with a durable aluminum or reinforced polycarbonate base

Momentary/Maintained Action

Custom Foot Switches:

The Series 300 can be provided with special nameplates, cord sets, plugs, strain reliefs, and other features that may be required for specific applications.

FEATURES

1. Durable aluminum or polycarbonate base with formed steel cover.
2. Ultra smooth variable speed operation.
3. ½" NPTF connector hole standard for cable strain relief fittings. Other connector holes available on request.
4. No exterior springs! Torsion springs located inside the foot switch.
5. Four mounting slots.
6. Capable of handling up to 12/3 cable or .50" O.D.
7. 10 amp, SPDT long life snap switch available to operate at beginning or end of stroke.
8. Equipped with 2 watt potentiometer (customer to specify Ohm rating and taper, i.e., linear or logarithmic).
9. #8 grounding screw is provided.
10. Skid-resistant elastomeric base pad.
11. Buna-N O-Ring and Buna-N gasket seals.
12. Numerous cord strain reliefs available for your special requirements.

BENEFITS

The Series 300 foot switch is engineered for operations that demand both precision and flexibility, providing ultra-smooth variable-speed control. Its durable construction and corrosion-resistant base ensure long-lasting performance, even in challenging environments.

Series 500

360° Platform, Momentary/Staged Action

Designed for superior accessibility and engagement for the operator

Momentary/Staged Action

Custom Foot Switches:

The Series 500 can be provided with special nameplates, cord sets, plugs, strain reliefs, and other features that may be required for specific applications.

FEATURES

1. 360 degree functionality!
2. Durable construction with fiberglass-filled nylon case and housing.
3. Sturdy aluminum baseplate.
4. Circular design allows easy actuation.
5. Long-life snap switches.
6. 2-stage options available.
7. Buna-N-Gasket seal.
8. Skid-resistant elastomeric base pad.
9. Numerous cord strain reliefs available for your special requirements."

BENEFITS

Designed with advanced ergonomics, the Series 500 foot switch is proven to reduce operator fatigue and boost productivity. Its unique circular design facilitates easy actuation from virtually any angle, maximizing user comfort and efficiency.

Series 600

Wide Target, Momentary/Staged Action

Features a wide, stable platform for enhanced operator comfort and improved productivity

FEATURES

1. The 600 features a flexible strain relief option for up to 18/3 SVT cord for longer cable life.
2. High strength socket head hinge screws.
3. All threaded openings are extruded to provide extra thread engagement.
4. Stable platform, even on corners!
5. Long life snap switch.
6. #8 grounding screw is provided.
7. High quality, black epoxy coating.
8. Wide target area!
9. 2-stage options available.

BENEFITS

This Series 600 features a wide, stable platform that comfortably supports the operator's foot, improving both comfort and productivity. Built with staged operation in mind, applications needing a boost will find it in the Series 600.

Momentary/Staged Action

Custom Foot Switches:

The Series 600 can be provided with special nameplates, cord sets, plugs, strain reliefs, and other features that may be required for specific applications. Available in DPDT; 2-stage operation, higher amperage and voltage ratings on special orders.

Series 700

Rocker, Momentary Action

A robust, ergonomic package with a unique reniform design

FEATURES

1. Polished metal housing and sealable base.
2. 1/4" NPT and PG-7 connector standard for cord strain relief fittings.
3. Fully encapsulated compression springs.
4. Accepts up to 20/4 cord or .30" O.D. MAX.
5. Long life snap action switches.
6. Skid-resistant elastomeric base pad.
7. Left to right oscillating cover.
8. Reniform, low-profile design.
9. Single operation (Right/Left with opposing foot rest) or dual operation.

BENEFITS

Combining ergonomic utility with a compact, low-profile form, the Series 700 foot switch is easy to operate and store. Its durable construction and polished metal housing offer high corrosion resistance, ensuring long-term reliability.

Momentary Action

Custom Foot Switches:

The Series 700 can be further customized with special nameplates, cord sets, plugs, and other features required for specific applications. Ratings from 10 - .1amp

Series 862

Ergonomic, Momentary/Maintained Action
Engineered for improved productivity and greater operator comfort

FEATURES

1. Solid steel construction, with a full cover and base pads.
2. The 862 features a cable clamp that is located inside the foot switch.
3. Redundant corrosion-resistant spring system.
4. High strength socket head hinge screws.
5. All threaded openings are extruded to provide extra thread engagement.
6. Two mounting holes.
7. Capable of handling up to 14/3 cord.
8. .187" x .020" quick-connect terminals required.
9. Long life snap switch.
10. #8 grounding screw is provided.
11. High quality, black epoxy coating.

BENEFITS

The Series 862 foot switch boasts an ergonomic design specifically created to reduce operator fatigue and increase productivity. Its innovative pedal hinge is strategically placed under the ball of the foot, ensuring exceptional comfort and ease of use during extended operations.

Momentary/Maintained Action

Custom Foot Switches:

The Series 862 can be provided with special nameplates, cord sets, plugs, strain reliefs, and other features that may be required for specific applications.

Series 892

Traditional, Momentary Action
A classic design that is reliable and versatile enough to handle any operation

FEATURES

1. Solid steel construction, with a full cover and base pads.
2. The 892 features a cable clamp that is located inside the foot switch.
3. Redundant corrosion-resistant spring system.
4. High strength socket head hinge screws.
5. All threaded openings are extruded to provide extra thread engagement.
6. Two mounting holes.
7. Capable of handling up to 14/3 cord.
8. .187" x .020" quick-connect terminals required.
9. Long life snap switch.
10. #8 grounding screw is provided.
11. High quality, black epoxy coating.

BENEFITS

Constructed with solid steel and a full cover for maximum durability, the Series 892 foot switch prioritizes operator comfort and productivity. It provides safe, efficient operation with dual and triple foot switch options that allow for separate control initiation.

Momentary Action

Custom Foot Switches:

The Series 892 can be provided with special nameplates, cord sets, plugs, strain reliefs, and other features that may be required for specific applications.

Series 893

Heavy Duty, Momentary Action

Designed for long-term reliability and improved productivity

Momentary Action

Custom Foot Switches:

The Series 893 can be provided with special nameplates, cord sets, plugs, strain reliefs, and other features that may be required for specific applications.

FEATURES

1. Solid steel housing with cast zinc cover.
2. Skid-resistant elastomeric base pads.
3. Superior cable clamp system.
4. Redundant corrosion-resistant spring system.
5. High strength socket head hinge screws.
6. Threaded openings are extruded to provide extra thread engagement.
7. Four mounting holes located 2.88" on center side to side and 4.28" on center front to rear.
8. Capable of handling up to 12/3 cord.
9. Long life snap switch.
10. #8 grounding screw is provided.
11. High quality, black epoxy coating.

BENEFITS

Featuring a durable design built with quality components, the Series 893 foot switch guarantees long-lasting performance. The heavy-duty construction and ergonomic design are key to enhancing operator comfort and reducing fatigue during use.

Series 894

Pneumatic, Momentary Action

Specifically designed for pneumatic applications requiring consistency and reliability

Momentary Action

Custom Foot Switches:

The Series 894 can be provided with special nameplates, tubing, legris fittings, strain reliefs, and other features that may be required for specific applications.

FEATURES

1. Solid steel housing with die cast zinc cover.
2. Skid-resistant elastomeric base pads.
3. Available with or without baseplate.
4. Optional private labeling.
5. Threaded openings are extruded to provide extra thread engagement.
6. High quality, black epoxy coating.

BENEFITS

The Series 894 foot switch utilizes heavy-gauge steel construction around a cast air valve, offering superior reliability. Versatile and easy to use, the innovative three-way ports enable instant connections and quick setups.

GUARDS

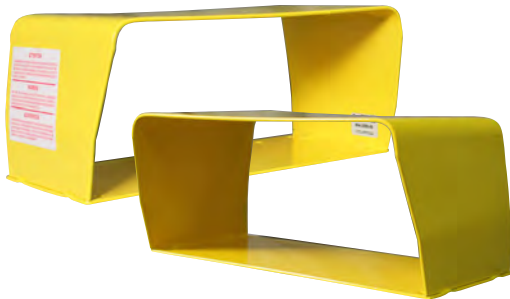

Single Yellow Guard
For Series 862, 892, 893 and 894

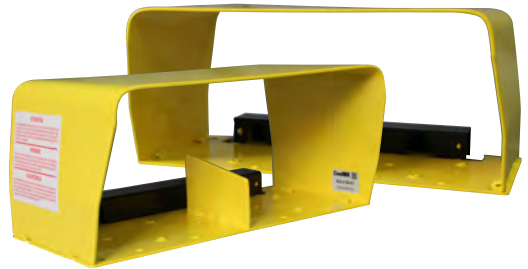

Single Black Guard
For Series 862, 892, 893 and 894

Single Stainless Guard
For Series 862, 892, 893, and 894

Dual Yellow Guard
For Series 210, 220

Dual Yellow Guard
For Series 862, 892

Dual Yellow Guard
For Series 893, 894

Dual Orange Guard
For Series 893, 894

Dual Orange Guard
For Series 862, 892

Trusted Industrial Foot Switch Solutions Since 1985

Why Choose ConnTrol Foot Switches?

-  Over 40 years of experience manufacturing American-made foot switches
-  Trusted by leading OEMs and industrial engineers globally
-  Rugged, sealed foot switches designed for harsh conditions
-  Ergonomic designs reduce operator fatigue and increase productivity
-  Fully customizable switches tailored to your application
-  Fast turnaround and dedicated customer service

Explore Our Product Lines

ConnTrol offers a board range of foot pedal controls, Including:

-  Light-duty foot switches for precision and comfort
-  Heavy-duty foot switches built for demanding environments
-  Sealed foot switches engineered for safety and durability
-  Custom foot switches designed to meet exact specifications
-  Accessories and guards to enhance safety usability
